

## CORSIA Reporting Steps for Operators:

SARPs Annex 16 VOL IV:	ICAO's Annex 16 Volume IV is the base of whole CORSIA as it describes the CORSIA regulations in depth.
ETM Volume IV (Doc 9501):	The 3rd edition of the ETM - Environmental Technical Manual (Doc 9501), Volume IV Procedures for demonstrating compliance with CORSIA.
Monitoring and Reporting:	In order to comply with CORSIA, operator need to assess their monitoring and reporting obligations as per the annex 16 & Environmental Technical Manual requirements.
Independent Verification:	Before the submission, the independent verification is mandatory to ensure the accuracy of the emission report.
Offsetting of Emissions:	The operator needs to offset their emissions by buying carbon credits or using CORSIA eligible fuels and prepare the Emissions Unit Cancellation Report (EUCR) and get it verified by an independent verifier.
