

CORSIA Reporting and Offsetting for operator

MRV Eligibility	The MRV Assessment must be done by the operator.
Monitoring	An operator with MRV Requirements would start monitoring its flight and fuel data.
Reporting	After the completion of the monitoring year, the operator needs to report its emissions
Verification	Operators need to verify their emission reports from an independent verifier.
Submission	After a successful verification, operator needs to submit the emissions report and verification report to the state.
Offsetting	State needs to calculate their offsetting requirements for compliance cycle by using the Sectoral Growth Factor released by ICAO every year.
EUC Report	To Offset the emissions, the operator needs to prepare the EUC Report and get it verified by an independent verifier.
EUC Submission	After a successful verification of the Emission Unit Cancellation, the operator needs to submit the EUC verification report to the state.
